SECTION 9

Core Values

Developer Note: Each value below has a confirmed label and confirmed description. Use verbatim. These populate the Values section of the About or Mission page.

DIGNITY

Every person deserves the conditions to show up fully in life — for school, for work, for their family, for themselves. Hygiene is not a reward for financial stability. It is a foundation.

ACCESSIBILITY

No appointments. No paperwork. No barriers. Showing up is enough.

COMPASSION

Every distribution decision is designed to protect privacy and preserve self-respect. Recipients are neighbors helping neighbors — not cases being processed.

COMMUNITY

Built by a Hobbs resident, for Hobbs residents, using Hobbs partnerships, volunteers, and generosity.

VOICE

This initiative exists because one person refused to wait for someone else to speak up.

TRANSPARENCY

Every product donated and every dollar contributed is tracked and reported to partners, sponsors, and donors.

EMPOWERMENT

The people this initiative serves are not charity cases. They are students, workers, parents, seniors, and neighbors navigating a structural gap that no individual effort can close alone.

PARTNERSHIP

No initiative succeeds alone. Every partner organization in the network makes the whole network stronger.

SECTION 10

Founder Story

Developer Note: This section populates the About page founder story. Use the full text below verbatim. This is confirmed and approved for public website use.

FOUNDER NAME: Jericho Gutierrez

BACKGROUND: Full-time student, Hobbs, New Mexico resident

FOUNDER STORY — APPROVED VERBATIM FOR WEBSITE:

"I started Project Dignity Hobbs because I was living inside the gap it is designed to fill. Every month, I face a choice that no person should have to face. When my bills come due, I have to decide: pay what I owe, or buy hygiene products, cleaning supplies, and laundry detergent. Most months, I cannot do both.

Before I built anything, I researched every organization in Hobbs I could find. I spoke with staff. I visited. I asked hard questions. I found real organizations doing real work — but I also found that not one of them could offer household cleaning supplies consistently. Not one offered anything on Saturdays. And not one could reach the workers and students whose schedules never align with a weekday morning service window.

I thought: I cannot be the only one going through this.

So I started. Project Dignity Hobbs opens June 13, 2026. Every Saturday. Free. No paperwork. For every neighbor in Hobbs who has been carrying this gap alone."

SECTION 11
